**Meeting Minutes**  
**State College Borough Tree Commission**  
**March 23, 2018**

The State College Borough Tree Commission (TRC) met on Friday, March 23, 2018, in Room A106 of the State College Borough Service Facility, 330 South Osmond Street, State College, PA. Chairman, Lynn Herman called the meeting to order at 12:17 p.m.

**Members Present**

Lynn Herman, Bruce Rohrbach, and Justin Wheeler

**Others Present**

Alan Sam, Arborist/Environmental Coordinator; Deb Hoag, Director of Public Works; Stephenie Grove, Staff Assistant and Tony Fruchtl, Project Manager with PennTerra Engineering Inc.

**Public Hour**

No public in attendance.

**Approval of Minutes**

On a motion by Mr. Rohrbach and seconded by Mr. Wheeler, the January 18, 2018 meeting minutes were approved as submitted. The vote was unanimously in favor.

**Discussion/Action Items**

Review/Comment on Tree Removal & Replacement for the Residences – Mr. Sam briefly overviewed the construction of the Residences complex and the removal and replacement of trees requested by the developer. Mr. Sam noted that ten street trees valued at \$44,550 were requested to be replaced. Mr. Sam also noted the developer would be responsible for the value of the removed trees less any replacements that are planted. Tony Fruchtl, Project Manager with PennTerra Engineering, Inc. was in attendance to field questions and concerns from the Commission.

Mr. Rohrbach questioned what type of protection would be used around the trees while they are young? Mr. Sam stated post and chain fencing along with additional plantings would be used around the trees.

Mr. Herman inquired the developer's timeframe for tree removals. Mr. Fruchtl stated it could possibly start the end of 2018.

Mr. Wheeler motioned to approve the removal of the suggested trees and to give direction to the arborist to work with the developer to improve diversity from what is shown on the current plan and to consider using Hybrid Maple trees. Mr. Rohrbach second the motion and the vote was unanimously in favor.

Hazard Tree Update – Mr. Sam stated the Borough has received complaints concerning hazardous trees on several private parcels that may impact public property or right-of-way. Mr. Sam noted that he is working with the following properties:

234 Crestmont Avenue – A tree is infected with Emerald Ash Borer on the property. The Borough is concerned the tree will fall on the public right-of-way. The resident is currently facing financial difficulties to tend to the tree, but they are working with Mr. Sam to move forward with the requested removals as funds permit.

1047 Saxton Drive – Mr. Sam is concerned with a Hybrid Poplar tree falling on the bike path in Orchard Park. The resident is currently working to have the trees removed.

1057 Saxton Drive – Also have private trees in poor condition that could fall on the bike path in Orchard Park. The home is currently being sold and this has complicated removal of the trees

Capital Improvement Program Ideas – Mr. Sam gave a brief overview of what the Capital Improvement Plan entailed. He defined the CIP as a planning tool used to look at larger projects that cost over \$25,000 that might come up over the next five years and may not be considered maintenance. Mr. Sam mentioned the following projects that were considered from previous CIP recommendations that effect the TRC:

- PK001- Park Maintenance Reserve
- PK171- Action Sports Park Committee
- PK200- Park Land Acquisition/Holmes-Foster Park Improvements
- ST121- Atherton Corridor Improvement Project

Ms. Hoag informed the Committee of the Action Sports Park report. She stated the report was well received by Borough council and that it was finalized and ready to present to Centre Region Council of Governments for consideration.

Mr. Sam inquired if Committee members had any current suggestions or recommendations for the CIP and suggested that all plans and ideas be submitted to the Administration by April 6<sup>th</sup>.

### **Items of information**

Mr. Sam stated the ABC dinner is scheduled for April 17<sup>th</sup> and the Regional Tree Commission meeting is scheduled for March 28<sup>th</sup>. All Committee members were invited to attend both events.

Mr. Sam then displayed for the Committee members the educational sign proofs that will be used for the Holmes-Foster Park restoration plantings area. Mr. Wheeler noted the photo used for the Native Columbine plant was incorrect. Mr. Sam noted he would see if the photo could still be changed. Mr. Herman questioned the quantity and cost of the signs. Mr. Sam stated two signs would be needed and the total cost would be around \$4500.

## **Future Meeting Dates**

The Commission reviewed the following meeting schedule:

Thursday, July 19 at 8:30 a.m. (Drive Around)  
Thursday, August 2 at 8:30 a.m. (Drive Around)  
Tuesday, September 11 at 7:00 p.m.  
Tuesday, September 25 at 7:00 p.m.  
Thursday, November 15 at Noon

## **Reports of Interest**

Arborist's Report – Mr. Sam reported on recent tree related activities. Highlights included:

- Tree removals from the 2017 approval list completed.
- One of two blocks of contract pruning completed by Dincher & Dincher.
- Tree pruning started on Doris Avenue by Tree Crew.
- 139 stumps to be removed starting on April 3<sup>rd</sup>. Received 2 bids:
